

UK Power Networks project

Ace of Spades roundabout works – starts 14th September 2026

Stage 1

UK Power Networks project is ahead of schedule so work will be commencing on the A3 Ace of Spades roundabout from Monday 14th September 2026.

The works will start outside the Shell garage. The lanes outside the garage and the inside lane on the slip road going east towards Tolworth will be closed. Motor vehicles and cyclists will have to use alternative routes eg via Tolworth and Long Ditton.

The garage will remain open during the works.

The lanes leading to the roundabout travelling north will be reduced to two lanes. The lanes travelling south will be single lane. This provides the contractors one lane for the dig and the other lane for lorries etc disposing of the spoil etc.

During this stage buses will be on divert. Further information <https://tfl.gov.uk/bus/status/>

Bus diversions

During this stage buses travelling south from Surbiton to Chessington will be re-routed. This is our understanding of the bus diversions but please check Transport for London for updates

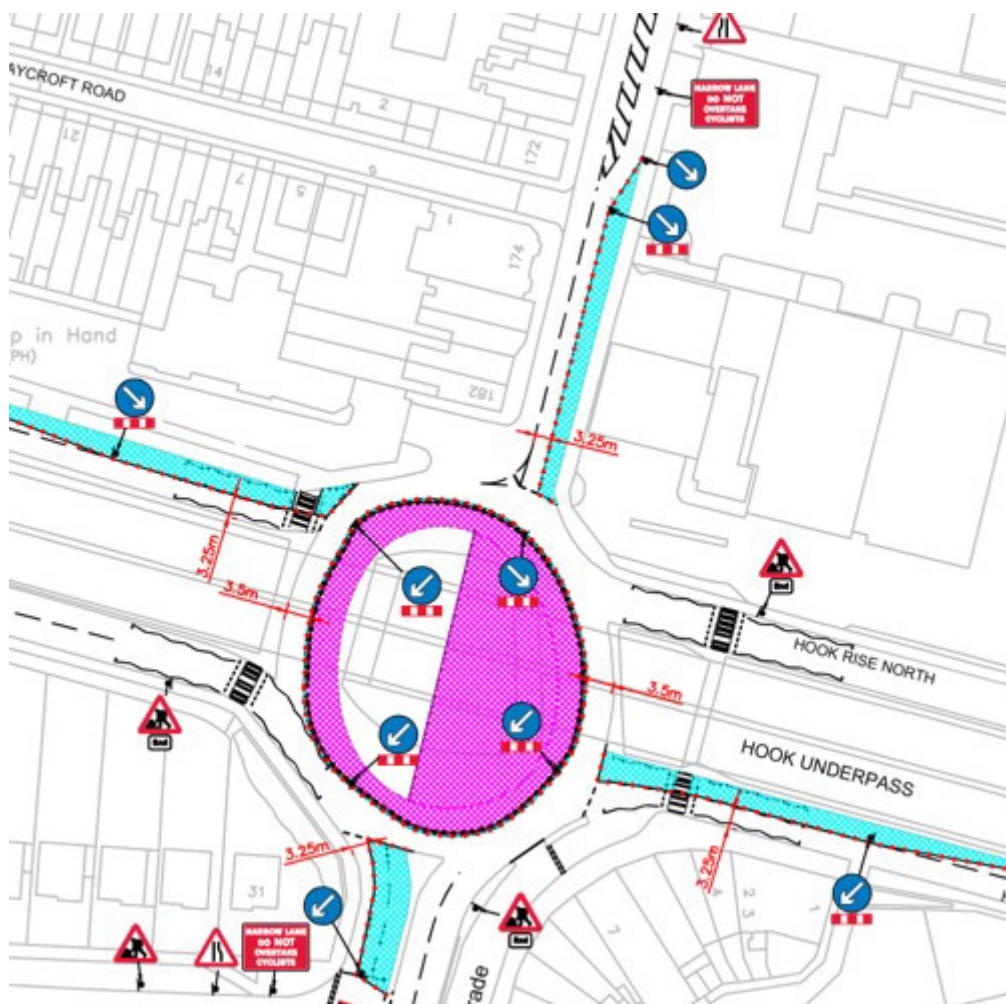

<https://tfl.gov.uk/bus/status/>

71 and N65 will go via Ditton Road, Ewell Road, Tolworth Broadway, A3 southbound and rejoin Hook Road with first stop being North Star (Elmcroft Drive southbound bus stop will be closed). 465 and K4 will go via Thornhill Road, Red Lion Road, Tolworth Broadway, Jubilee Way, Cox Lane, Gosbury Hill, Orchard Gardens and then resume the usual route at Hook Parade.

467 is unaffected.

Stage 2

The next stage will see the work take place on the centre island of the roundabout with traffic to flow around the roundabout as single lane.

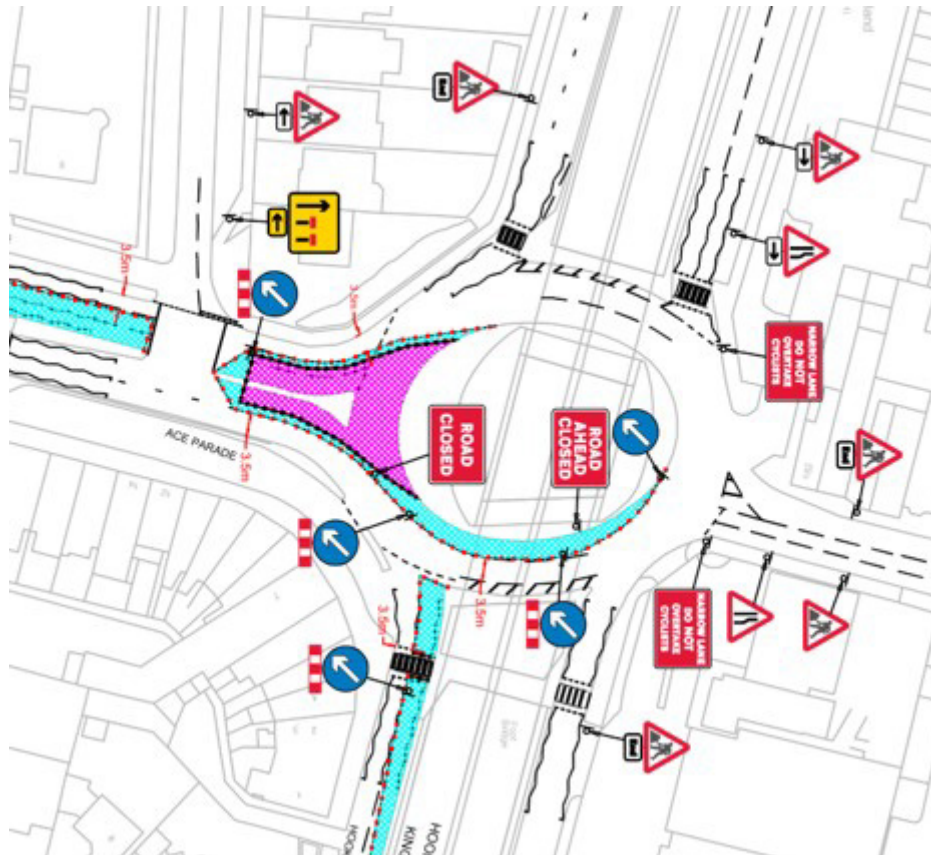

Stage 3

This stage is awaiting confirmation by TFL and UK Power Networks team will keep us informed as soon as they are made aware of the start date.

This will see the lanes on the south side of the roundabout closed. During this time, you will not be able to travel from the Hook Rise South slip road across the roundabout to either Kingston or Hinchley Wood. The safest way is to travel south to the Bridge Road roundabout and back up.

It is not good to see vehicles doing U turns at Somerset Avenue or Cecil Close.

We advise you to avoid the Ace of Spades road network unless really necessary.

We are trying to get the supermarket juggernauts diverted and use the M25 Junction 10 – A3 Ace of Spades Underpass to get into west London (the railway bridge at Tolworth on the A240 being too low to take these large vehicles). [Find out more about this campaign](#)
